HISTORY OF V.L.E.I.S

The Vermont Law Enforcement Information System (V.L.E.I.S.) is a computer based incident reporting system designed to provide for uniform statewide reporting by all law enforcement agencies. Funding for the system is provided by the Department of Public Safety.

Input forms are used to transmit agency activity and crime statistical information through the Vermont Criminal Information Center (V.C.I.C.) to the State Information System (S.I.S.) for processing. Weekly and monthly reports are generated which display officer activity, calls for service and crime statistical information.

V.L.E.I.S. was the result of years of study and planning, involving a significant number of people. The best features from a number of incident reporting systems were incorporated into a carefully tailored system to meet the needs of Vermont Law Enforcement.
